

Micah Johnson

AI Deployment Engineer — GenAI Solutions, Customer Success, Technical Architecture

Kennedale, TX · micah@createsomething.xyz · LinkedIn · createsomething.io

EXPERIENCE

Founder — GenAI Platform

2023 – Present

CREATE SOMETHING · WORKWAY

- Building WORKWAY—AI-powered workflow platform using OpenAI and Anthropic APIs
- Architecting production GenAI solutions: agentic workflows, tool calling, RAG patterns
- 47 tracked experiments documenting prototype-to-production journey
- 155 scripts reduced to 13 through systematic GenAI application methodology
- Multi-model integration: GPT-4, Claude, routing based on use case requirements
- Full-stack Python/TypeScript: building POCs and production-grade deployments

System Architect

2021 – Present

Webflow · Marketplace Team

- Architect enterprise-grade systems for marketplace serving millions of users
- Design scalable solutions balancing technical requirements with business value
- Cross-functional collaboration: translate business needs into technical roadmaps
- Guide projects from early prototyping through production deployment

On-Screen Educator

2020 – 2021

Webflow · Education Team

- Helped launch Webflow University 2.0—scaling technical knowledge to diverse audiences
- Created video tutorials, live streams, documentation reaching thousands of users
- Translated complex technical concepts for executive and practitioner audiences
- Contributed to open resources that scaled best practices across customer base

Customer Support Specialist & Team Manager

2018 – 2020

Webflow · Support Team

- 500+ direct customer engagements—deep understanding of adoption challenges and solutions
- Led team of specialists, drove adoption and successful outcomes

- Built internal systems to accelerate customer time-to-value
- Identified high-value use cases and guided customers from problem to solution

TECHNICAL SKILLS

GenAI: OpenAI API, GPT-4, Claude, agentic workflows, RAG, tool calling

Languages: Python, TypeScript, JavaScript, SQL

Architecture: API design, distributed systems, production deployment

Infrastructure: Cloudflare Workers, AWS patterns, edge deployment

Customer Success: Technical consulting, solution design, stakeholder management

Communication: Technical documentation, video content, executive presentations

EDUCATION

Texas A&M University

Bachelor's Degree

UI/UX Design Certification

Boulder Digital Arts
