

Micah Johnson

Senior Platform Engineer — AI Orchestration, Python/TypeScript, Multi-Agent Systems

Kennedale, TX · micah@createsomething.xyz · LinkedIn · createsomething.io

EXPERIENCE

Founder — AI Orchestration Platform

2023 – Present

CREATE SOMETHING · WORKWAY

- Building WORKWAY—AI orchestration platform for TypeScript workflows on edge infrastructure
- Multi-agent orchestration: Harness (sequential workflows), Gastown (parallel execution), Ralph (iteration loops)
- Multi-provider model integration: Claude API, GPT-4, routing based on task requirements
- Production AI capabilities: guardrails, prompt management, tool calling, MCP integrations
- End-to-end ownership: design, build, deploy, monitor—155 scripts reduced to 13 through systematic methodology
- Full-stack Python and TypeScript: SvelteKit/React frontend, Node backend, PostgreSQL, REST/GraphQL APIs

System Architect

2021 – Present

Webflow · Marketplace Team

- Architect platform services for template marketplace serving millions of users
- Build search and retrieval systems using OpenSearch for template discovery
- Design distributed systems: API gateways, caching layers, service integration patterns
- Own services end-to-end: SLOs, dashboards, operational readiness, incident response
- Cross-functional collaboration with product, design, and engineering teams

On-Screen Educator

2020 – 2021

Webflow · Education Team

- Helped launch Webflow University 2.0—complex technical concepts for diverse audiences
- Documentation, runbooks, knowledge transfer at scale

Customer Support Specialist & Team Manager

2018 – 2020

Webflow · Support Team

- Led team of specialists, built internal LMS for onboarding (scaled APAC team)

- 500+ technical interactions—deep understanding of production issues and debugging
- Built template submission system for Marketplace (cross-functional impact)

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL

AI/LLM: Claude API, GPT-4, agentic workflows, RAG, tool calling, MCPs

Infrastructure: Cloudflare Workers, Docker, CI/CD, edge deployment

Data: PostgreSQL, OpenSearch, D1, vector patterns, caching

Observability: Logging, metrics, monitoring, incident response

AI Tooling: Claude Code, Cursor, GitHub Copilot, automated testing

EDUCATION & CERTIFICATIONS

Texas A&M University

Bachelor's Degree

UI/UX Design Certification

Boulder Digital Arts
