

Micah Johnson

Support Systems Engineer · Tools Development · AI-Powered Workflows

Kennedale, TX [linkedin.com/in/micahryanjohnson](https://www.linkedin.com/in/micahryanjohnson) createsomething.io

I've been the support manager waiting for better tools. Led a support team at Webflow, built internal systems to improve operations, and now architect data infrastructure. I understand what support teams actually need—because I've lived it. Now I build AI-powered workflows and automation systems that make operations scale.

EXPERIENCE

Founder · WORKWAY

Apr 2025 – Present

Automation infrastructure · AI-powered workflows · TypeScript on Cloudflare

- **Building AI-powered workflow automation** platform for routing and managing tasks
- **Developed intelligent routing systems** that analyze, tag, and route work to appropriate teams
- **Created automation infrastructure** that runs while you sleep—the layer between intention and execution

System Architect · Webflow

Dec 2024 – Present

Marketplace Team · Data Infrastructure · Snowflake, Census, Amplitude, Segment

- **Architect internal tools and dashboards** giving managers visibility into team performance
- **Build data pipelines** using Snowflake, Census, Amplitude for operational insights
- **Design scalable systems** ensuring reliability and performance for internal teams
- **Create technical documentation** for all systems and processes

Marketplace Operations Manager · Webflow

Jul 2023 – Dec 2024

- **Built internal applications** to improve efficiency of operations organization
- **Developed dashboards** for managers to track case backlog and team performance
- **Created integrations** between marketplace systems and internal tools

Customer Support Specialist & Team Manager · Webflow

Feb 2018 – Mar 2020

Support Operations · Tools Development · Team Leadership

- **Led global support team**—hiring, performance management, service quality
- **Built internal support tools** including LMS and onboarding systems using Knack and Webflow
- **Created ticket management workflows** to optimize routing and resolution times
- **Developed technical documentation** for support processes and knowledge base
- **Collaborated with engineering** to translate operational needs into technical solutions
- **Monitored and troubleshoot** support systems to ensure business continuity

On-Screen Educator · Webflow

Mar 2020 – Apr 2021

- **Created comprehensive documentation** for Webflow University platform

- **Cross-functional collaboration** with product, engineering, and support teams

Co-Founder, Technology · Half Dozen

Jul 2024 – Present

- **Built automation workflows** for event operations and case management
- **Integrated multiple SaaS platforms** into unified operational systems

Webflow & API Developer · Create Something

Nov 2013 – Present

- **12+ years building applications** with REST APIs and integrations
- **Documented 47 AI/ML experiments** including prompt engineering and workflow automation

TECHNICAL SKILLS

Languages JavaScript/TypeScript (12+ yrs), Python, SQL, HTML/CSS	Data & Analytics Snowflake, SQL, Census, Amplitude, Segment, BigQuery
AI/ML Integration Prompt engineering, LLM APIs, AI-powered workflows, automation	Web Frameworks React, Next.js, Node.js, REST APIs, GraphQL
Tools & Infrastructure GitHub, Cloudflare Workers, AWS, Vercel, Docker	Support Platforms Zendesk patterns, ticket routing, SaaS administration

EDUCATION

Bachelor's Degree · Texas A&M University

UI/UX Certification · Boulder Digital Arts
