EXPERIENCE

Founder — AI Platform

2023 – Present

CREATE SOMETHING · WORKWAY

- Building WORKWAY—AI workflow platform with end-to-end instrumentation and observability
- 47 tracked experiments: systematic evaluation methodology for AI system improvement
- Production baselines for latency, cost, quality across agentic workflows
- Multi-agent orchestration with tracing, logging, and feedback loops
- 155 scripts reduced to 13 through iterative evaluation and refinement
- Full-stack Python and TypeScript: prototypes to production-ready solutions

System Architect

2021 – Present

Webflow · Marketplace Team

- Architect production systems serving millions of users with observability instrumentation
- Establish performance baselines, monitoring dashboards, quality gates
- Cross-functional collaboration translating business needs into technical implementation
- End-to-end ownership: deploy, stabilize, continuously improve systems

On-Screen Educator

2020 – 2021

Webflow · Education Team

- Helped launch Webflow University 2.0—translating technical systems for diverse audiences
- Strong communication: technical lead running customer-facing educational content

Customer Support Specialist & Team Manager

2018 – 2020

Webflow · Support Team

- 500+ direct customer engagements—owning technical outcomes end-to-end
- Led team with operating cadence, feeding real-world learnings into Product
- Built prototypes and custom workflows to solve customer problems
- Bias toward action: shipped scrappy but production-ready solutions

TECHNICAL SKILLS**Languages:** Python, TypeScript, JavaScript, SQL**AI Systems:** LLM APIs, agentic workflows, evaluation frameworks, tracing**Observability:** Instrumentation, monitoring, logging, performance baselines**Infrastructure:** Cloudflare Workers, Docker, CI/CD, edge deployment**Customer Success:** Technical deployment, troubleshooting, outcome ownership**Methodology:** Iterative evaluation, quality gates, feedback loops**EDUCATION****Texas A&M University**
